

Get Your VA Health Information Online

You can get your VA health information whenever and wherever you have a computer or mobile device and an Internet connection! Having access to information from your VA health record can help you manage your health, avoid medical errors, and save time.

My HealthVet is VA's online Personal Health Record for Veterans that empowers you to become an informed partner in your health care. You can use **My HealthVet** to access VA health information, refill VA prescriptions online, manage appointments, review laboratory results, communicate securely with your VA health care team, track health information, and more.

What are the benefits of using My HealthVet to get information from your VA health record?

Access your VA health information conveniently from the comfort of home.

Save you precious time, especially in cases of an emergency.

Share your VA health information with community providers, family or other caregivers.

Review what was discussed at your health care visits.

Prevent you from having unnecessary tests and/or procedures.

You have options!

My HealthVet offers you three options for reviewing and sharing information from your VA health record.

VA Blue Button Report: Customize your request for information by choosing the date range and types of information you want to view, such as lab results and progress notes. This option gives you access to current and historical information, self-entered, information and DoD Military Service information.

VA Health Summary: This is a continuity of care document designed to support you sharing a summary of your VA health information, such as allergies, health conditions, medications, laboratory tests, and more, with community (non-VA) providers or other electronic applications. Note: You are not able to choose the information included in the summary.

VA Medical Images and Reports: Access your radiology studies such as X-rays, MRIs or CT scans. You can download and share these images and reports with your providers, including non-VA providers.

VA Blue Button Report

View, print, and download the personal health information you want.

VA Health Summary

You can view, print, or download a health summary from your VA medical record. It includes allergies, medications, recent lab results and more. This is available in a standard file format that can be read by other computer systems.

VA Medical Images and Reports

You can view a list of your VA medical imaging studies. This currently includes Radiology studies such as x-rays, ultrasounds, MRIs, and CT scans. The images and reports for your study are then available in a file that you can download or share with others.

You can still request medical record information from your VA facility Release of Information Office.
If you have questions about information in your health care records, contact your health care team to discuss.

Protecting Health Information

You are responsible for protecting the personal information you print or download. To learn more, read this article *"Protecting Your Personal Health Information"*.
