My HealtheVet

Your VA Personal Health Record

Five Ways My HealtheVet Can Benefit You

Pharmacy
Refill your VA prescriptions, track delivery, receive shipment email notifications and much more.

Secure Messages
Use the Secure Messaging feature to communicate about non-emergency matters with a variety of VA staff and services (e.g., providers, administration, billing, pharmacy) as implemented at your VA facility.

Appointments
Keep track of your upcoming VA medical appointments and get email reminders. VA patients with a Premium My HealtheVet account who have had a primary care appointment at a participating facility in the last two years can use the online scheduling tool to schedule VA appointments.

Health Records
View, print or download your VA Notes, lab test results and other health information with the Blue Button feature. Avoid duplicate tests and procedures by accessing and sharing your VA Health Summary with community providers.

Veterans Health Library
Visit this online library of trusted health education to learn more about health and wellness, look up information about tests or medications, or learn about specific conditions such as Post-Traumatic Stress Disorder (PTSD), women Veteran health issues, traumatic brain injury (TBI) and others.
